DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

The marked-up copy of the specification and the amendments to the specification filed 12/22/2003 have not been entered. A substitute specification without the claims is required pursuant to 37 CFR 1.125(a) because the stated page numbers of all of the figures and relevant text in the 5 page amendment filed 12/22/2003 do not correspond to the page numbers in the marked-up copy of the specification also filed on 12/22/2003. For example, the amendment filed 12/22/2003 states that page 42, lines 9-13 have been amended, however, in the marked -up copy of the specification the corresponding paragraph appears on page 43, lines 8-12, and not on page 42. In addition, no clean copy of the specification was supplied in the response filed 12/22/2003.

Applicants are required to submit:

1. A marked-up version of the specification, incorporating all of the amendments into the specification (i.e., renumbered tables and amended text) to clearly show the changes made.
2. A clean copy of the specification, which also incorporates all of the amendments made to the specification.

Applicant is reminded that a substitute specification filed under 37 CFR 1.125(a) must only contain subject matter from the original specification and any previously entered amendment under 37 CFR 1.121. If the substitute specification contains additional subject matter not of record, the substitute specification must be filed under 37 CFR 1.125(b) and (c).

Any inquiry concerning this communication should be directed to Examiner David J. Blanchard, Art Unit 1642, whose telephone number is (571)272-0827.

Respectfully,
David Blanchard
